(KUBARK, SCHOOL OF THE AMERICAS, SABOTAGE, REGIME CHANGE, ORGANIZATIONAL WEAPON, COINTELPRO, COUNTERINTELLIGENCE, HUMAN RESOURCES, APPLIED PSYCHOLOGY, NATIONAL SOCIALISM, NATIONAL SECURITY, KARL T. COMPTON [manpower], DYSGENICS)

The program is rather simple, and repeated indefinitely. CIA conducts kill-chain, psychological profiling of a target organization / country.¹ It identifies persons with anti-social personality disorders,² and isolates them, from the rest of the organization.

It empowers the pathological within an organization, and showers them with flattery, gifts, and high profile, visible leadership roles & authority.³

The neurotypical are then slandered as ‘sour grapes,’ when they complain about the shift in leadership; and denounce the criminals within their organization. Often, medical fraud is performed by the State,⁴ using pseudo-scientific Kraepelian psychology to slander those with complaints.

Psycho-correction⁵ is also used, often pursuant to coinciding trauma,⁶ to suggest a new sense of coherence,⁷ and supplies misleading, or false information; and other relationships, as replacement companionship, which are often not ideally healthy. (Outside of the original community being destroyed.)

{Additionally, when they are challenged, narcissistic rage of the pathological S, emboldens them to distance themselves from the neurotypical within to community, group or organization, and becomes internecine conflict. Socially gendered relationships are also frequently targeted.}⁸

The organization, community, or nation target of these acts eventually falls by its own hand.⁹

Vulture Capitalism

The target is then ransacked by outside organizations (racketeering,) which take custodianship of the Subject, claiming to be acting in the best interests of the fallen target. Leadership is then replaced with the Experimenter's personnel, and resources are then expropriated.

This methodology is used across the board; and facilitated by actuarial accountants & risk management departments.

It is hegemonic belligerence, unlawful, and politically considered National Socialism.¹⁰

There are other details to these methods, but that is the basic outline of the program. Bronx Project files contain details of all these (psychological & economic [warfare]) methodologies.

Our office has devised a conceptual framework to assist visualization of this complex system, as follows:

These acts are believed to be carried out under a tiered system:

- *Tier Zero, Corporate & Foreign State beneficiaries*
- *Tier One, United States Intelligence Community*
- *Tier Two, Corporate & Media Assets*
- *Tier Three, street-level criminal elements*

This framework is used to describe a hierarchy of actors which are being used to conduct these acts. This is a standard methodology to provide cover.

U.S. Intelligence agencies have employed private persons to carry out acts on the behalf of those agencies which would be unlawful for those agencies themselves to commit.

This relates to the conditional, and Qualified Immunity's of Federal Officers, including a duty to uphold U.S. Constitutional principles.

Due to compartmentalization ([terrorist] cell structure,) actors at various levels of the hierarchy do not possess the same understanding of the activities they are engaging in, as do others within the regime. Nor are these actors necessarily going to have the same motivations for engaging in those activities, (which are being discretely directed from a centralized body¹¹.)

"It is widely known that the CIA has a number of foundations which serve as direct fronts or as secret "conduits" that channel money from the CIA to preferred organizations. An intimation of the scope of this financial web was afforded the public on August 31, 1964, when Texas Congressman Wright Patman, in the course of an investigation into the use of foundations for tax dodges, announced that the J. M. Kaplan Fund of New York was serving as a secret conduit for CIA funds."
